Foster animals are still available for adoption through Mae Bachur Animal Shelter. If someone is interested in adoption, we will pass their information on to you so that a meeting can be arranged.

Name of Animal \_\_\_\_\_

Date of Application \_\_\_\_\_

---

Applicants must call back after 24 hours to activate the application.

If there is no correspondence to the shelter within 48 hours of filling out the application, it becomes void.

We do not foster to individuals under the age of 21.

If you are pregnant, please consider the possibility of allergies developing in your newborn BEFORE adopting a pet.

All animals are capable of aggression, and every dog is a potential biter, and every cat is a potential scratcher/biter. We cannot guarantee the absence of aggression.

Viruses are a fact of life for all animals and are often exacerbated in a shelter setting. While we take every precaution that only healthy animals are placed in foster homes, there may be medical circumstances that were not detectable while the animals were in our care.

Photo ID is required to process foster applications.

This application is not a test, and there are no wrong answers. We are only trying to find the most suitable, caring, foster homes for the animals in our care and the most appropriate and compatible pets for adopters and their families.

If you are fostering an animal less than four months of age, you must be willing to bring the animal to the veterinary clinic for spay or neutering upon request. If you are unable to bring the animal to the scheduled appointment, please contact the shelter to make necessary arrangements.

To foster is not the same as adopting. Foster animals are still available for adoption. If, after 1 month of foster care, you are not interested in adoption, contact the shelter to arrange a time to bring the animal back.

The Mae Bachur Animal Shelter reserves the right to refuse fostering to any individual. We will not release the reason for refusal.

Please initial that you have read and accept the above statements: \_\_\_\_\_
